Comments	The Crimp Tape Module <a href="#">640162000</a> is a base unit that will work like an applicator in a Molex TM-3000 <a href="#">638017200</a> , <a href="#">638017300</a> industry standard crimp press or the Molex TM-4000 <a href="#">638017600</a> industry standard crimp press. The Crimp Tape Module will accept all ATP-301 and ATP-201 style crimp dies. This Crimp Tape Module will allow customers to process most of Molex's Mylar Tape product from 2 AWG uninsulated and 4 AWG insulated products and up. The Crimp Tape Module will NOT work in any other industry standard crimp press or wire process machine. These ATP-301 style die sets can be used in the older style suitcase presses.
