Description

The U460-004-4A-C USB 3.1 Gen 1 USB-C Portable Hub expands the potential of your tablet, laptop, MacBook, Chromebook, smartphone or PC's USB-C or Thunderbolt 3 port. It's ideal for adding a thumb drive and other USB peripherals and powering and charging a PD Charging-compliant mobile device—all at the same time.

The plug-and-play U460-004-4A-C requires no software, drivers or external power. Connect the reversible USB-C plug to your source device's USB-C or Thunderbolt 3 port. The fumble-free USB-C plug connects in either direction to ensure fast, easy connection every time.

Four USB-A ports accept USB peripherals, such as a flash drive, mouse, keyboard or printer, and the dedicated fast-charging port provides up to 5V/1.5A (7.5W) for charging smartphones and other mobile devices. All ports support fast USB 3.1 Gen 1 data transfer rates up to 5 Gbps and are backward compatible with previous USB generations, so you can continue using older peripherals while getting high-speed performance from new devices.

The USB-C Power Delivery (PD) port provides power and charging to the PD Charging-compliant device (such as a MacBook or Chromebook) connected to the U460-004-4A-C. Connect the device's AC wall charger to the USB-C PD port, which supports power input up to 20V 3A (60W).
