Safe-IT UL 1363A Medical-Grade Power Strip for Patient-Care Vicinity, 4x 15A Hospital-Grade Outlets, 2 ft. Cord

MODEL NUMBER: **PS-402-HG-OEM**

Supplies power to movable plug-connected components mounted to IV poles, mobile carts, crash carts and mobile medical workstations in operating rooms and patient-care vicinities.

Description

The PS-402-HG-OEM Medical-Grade Power Strip supplies power to movable plug-connected components mounted to a rack, table or pedestal in operating rooms, patient-care vicinities, therapy rooms, imaging environments and administrative areas. Compliant with UL 1363A specifications, this 120V, 50/60 Hz power strip features a NEMA 5-15P-HG hospital-grade plug and four NEMA 5-15R-HG hospital-grade outlets.

The power strip is protected by a antimicrobial powder coating. Antimicrobial protection helps prevent the growth of bacteria, viruses, fungi, mold and mildew. The coating meets the requirements of JIS Z 2801:2000, an international standard for evaluating efficacy in antimicrobial products.

Two built-in resettable 15A circuit breakers control power to all outlets and protect the power strip against overloads. Switchless design prevents the unit from being accidentally shut off. The two-foot (0.6-meter) power cord eliminates excess cordage that needs to be wrapped.

Mounting tabs and flanges let you install the PS-402-HG-OEM on a wide variety of surfaces, such as IV poles, mobile carts, crash carts and mobile medical workstations. The all-metal housing ensures safety and is guaranteed to last a long time in demanding environments.
