

FireWire® - IEEE 1394 PCI Card (3 Port with Video Editing Software & Cable)

MODEL NUMBER: F200-003-R

Description

Tripp Lite's IEEE 1394 Firewire 3 Port PCI Card with video editing software provides your PC with 3 high-speed Firewire ports. Once this card has been installed in your PC you will have a simple and easy way to connect up to three IEEE 1394 Firewire devices. Connecting DV camcorders, hard disk drives, removable drives, scanners, printers, and other 1394 A/V devices including TVs, VCRs and DVDs will be a breeze. Supports data transfer rates up to 400Mb/s. The video editing software works with Sony, Panasonic, Cannon, Sharp, JVC and many other DV camcorders for digital video creating/editing. True to its plug-n-play nature, the card allows you to connect your camera to the PC anytime in order to transfer multimedia video from your digital camera to your PC for editing. Once completed, you can deliver the finished video back to your camera. The flexible 3-and-1 design also provides an internal port in case you are using an internal Firewire device such as a hard drive. Tripp Lite warrants this product to be free from defects in materials and workmanship for life. Packaged in Retail Box.
