Heavy-duty extension cord transforms a C20 plug into a locking NEMA L5-20P plug and extends an existing connection up to 10 ft.

Features

Heavy-Duty Extension Cable Connects Devices That Require a Heavy-Gauge Connection This heavy-duty extension cord features 12 AWG wire suitable for high power connections, making it a reliable solution for large server applications that require a higher-rated, heavier-gauge cable. This C19 to L5-20P cord transforms a non-locking plug into a locking plug and can be used to connect a high-output device to a wall outlet or a PDU or UPS with L5-20R outlets. It is also a recommended replacement or upgrade of a standard power cord provided by the device's manufacturer. The 10-ft. (3.05 m) length allows you great flexibility in placing equipment with respect to the power outlet.
