OptiSight Pro Headband Magnifier

with LEDs and Lenses 1x, 1.5x, 2x, 2.5x, 3.5x

This innovative headband magnifier is designed for a wide range of hands-free magnification needs. Applications include mechanical processing, electronics repair, jewelry inspection and appraisal, clock and watch repair, carving, hobby work, and more. Includes 5 auxiliary lenses (use up to two lenses at once), and a built-in swing-out lens that can combine for a maximum 14x magnification.

Features:

- A customizable solution for hands-free magnification
- Includes a 5 auxiliary lens kit with storage case
- A three LED light panel placed at the front of the device provides bright, shadow-free illumination
- The brightness intensity of the LEDs can be adjusted by pressing the button at the top of the light panel
- The length of the headband can be adjusted by twisting the headband regulating wheel to the desired length, and locked in place by pressing the wheel in
- The non-slip inner padding of the headband is designed for operator comfort for the duration of use

Eye Loupe Inspection Goggles

6x-25x w/ LED Light

Aven's Eye Loupe Inspection Goggles are designed for comfortable up-close inspection. The frames feature bright LEDs for applications where additional illumination is required. This set includes 6 pairs of interchangeable lenses, providing a magnification range of 6x - 25x.

Features:

- Designed for comfortable up close inspection
- Set includes 6 pairs of lenses, ranging from 6x - 25x
- Frames can be lengthened/shortened to the required length
- The lenses can be flipped upwards when not in use, so the operator does not have to remove the goggles.
- The lens barrels can be adjusted horizontally to accommodate the operator's face

Eye Loupe Inspection Goggles
