UL APPROVED* MINIATURE SIL REED RELAY WITH FORM B (N/C) CONTACTS

The S1 Form B series is a miniature high voltage single-in-line reed relay for applications where space saving is a prime consideration, with normally closed contacts.

The coil pins are positioned near the center of the relay while the contact pins are near the ends to give improved isolation between the high voltage contacts and the low voltage coil.

Features

- Single-in-line package
- 1.5kV Isolation Voltage across contacts
- 1.3A carry current
- Up to 1000V switching voltage

Custom versions can be made for particular applications. Please contact Sensata with your requirements.
