OUR STORY

For over 60 years, Southwire has provided high quality electrical wire and cable to the commercial and industrial construction industries. Now, the name you trust provides durable, cutting-edge professional grade tools, designed with safety and productivity in mind. Look to Southwire for solutions to all your electrical needs, from electrician's hand tools, meters, contractor equipment, temporary power, and extension cords.

Southwire, The Company

Southwire Company, LLC is North America's leading manufacturer of wire and cable used in the distribution and transmission of electricity. Throughout its history, our company has sought to help provide power through our products, our service and by helping empower our customers, employees, and communities. With more than 6,800 people at customer service centers, manufacturing facilities and sales offices throughout North America, we are dedicated to developing the highest-quality products and legendary service.

Southwire, The People

With more than 6,800 people at customer service centers, manufacturing facilities and sales offices throughout North America, we are dedicated to developing the highest-quality products and legendary service.

The Drive For Excellence

Driving for excellence starts with being responsive to our customers and the markets we serve. By creating business units, Southwire Company enables each to foster an entrepreneurial spirit, innovative solutions, and responsiveness required in today's business. At the same time each division can leverage the resources and rich history of Southwire Company as a whole.

The Products

To be successful requires products that give you solutions no matter what stage of the project cycle you are in. Our product teams and dedicated resources work together to listen to and work with our customers, creating solutions that deliver unparalleled value through product innovation, safety and efficiency.

The Service

Service is more than a word or a phone number; it's a tangible support system that assists you through the entire project cycle. Starting with our own knowledgeable customer service team, to our National Field Sales team, and our District Merchandising Specialists. In the office or in the field, we're there to lend a hand, just when you need it most. Feel free to reach us at 1-855-SWTOOLS (855-798-6657).

HAND TOOLS

STRIP-ALL® STRIPPERS

SA-200SK

WE'VE GOT IT
MADE IN AMERICA™

The SA-200SK is perfect for stripping flat cable. It is a very helpful tool that makes stripping cable faster. It can straight cut jacketed cables up to 5/8" and ring cut cables up to 1/2". Great for the electrician. The best part? This tool is proudly made in the USA.

- Extremely accurate
- Calibrated micrometer dial for precise depth of cut adjustment
- Handy, built-in wire stripper on all models
- Equipped with an extra-sharp, surgical type blade cartridge which easily slices through cable jackets

VEE-TWIN™ STRIPPER

VT-270

WE'VE GOT IT
MADE IN AMERICA™

The Vee-Twin™ Stripper makes it easy to strip difficult rubber cable as well as plastic jacket cables with its 90° rotating blade, which can be used for ring-cutting and straight-cutting. The VT-270 is perfect for precise cuts in thick cable. It is also great for stripping bulk amounts of cable. Proudly made in the USA.

- Depth of cut setting is extremely accurate to .001" due to a precision micrometer
- Useful for cable sizes ranging from 5/16" to 2-1/8" O.D.
- Used on entrance cable, plenum, multi-pair, and tray cables
- Strips plastic jackets from liquid-tight, flex, or MC
- Blade can be easily replaced
- Body is nickel plated steel for increased durability

4-PIECE ELECTRICIAN'S TOOL KIT

EKIT-4

Complete with 10-18 AWG wire stripper, 9-in-1 multi-bit screwdriver, high leverage side cutting pliers, and nylon carrying pouch.

10-18 AWG WIRE STRIPPER - MODEL # S1018STR
- Strips and cuts 10-18 AWG solid and 12-20 AWG stranded wire
- Stainless steel construction is durable and corrosion resistant
- Double-dipped grip provides comfortable fit
- Specially designed stainless steel cutting blades provide fast and clean wire stripping
- Serrated nose grasps the cable for easy twisting and pulling
- Spring loaded for self-opening action
- Not intended for cutting bolts or steel cable

HIGH LEVERAGE SIDE CUTTING PLIERS - MODEL # SCP9
- Induction hardened cutting blades ensure efficient and lasting cutting surfaces for hard and soft wire
- File teeth on jaws help remove burrs in conduit
- Cuts ACSR, screws, nails, and most hardened wire
- Curved handle and ergonomic molded grip for comfortable use
- Drop forged CRV steel for durability

9-IN-1 MULTI-BIT SCREWDRIVER - MODEL # SD9N1
- Includes 6 bits and 3 nut drivers for multi-purpose use
- Cushion grip handle for comfortable use and maximum torque application

COAX CCS CUTTER

CCSX-C1

Many coax cables today have a copper clad steel (CCS) center conductor. This specially designed cutter is made to reliably cut CCS coax that might damage standard cable cutters.

• Reliably cuts copper-clad steel coax without blade damage
• V-notch blade doesn't deform cable
• Forged steel
• Double-dipped textured grip

ROUND CABLE CUTTER

X-C1

The stainless steel X-C1 has two cable cutting profiles: a long nose for cutting in confined spaces and a cable tie cutting tip. This is perfect for coax and twisted pair cabling.

• Curved blade profile for clean cuts
• Elongated nose to reach and cut in tight places
• Stainless steel for corrosion resistance
• Double-dipped textured grip
• Cutting areas for small and large round cable

COAX TRIGGER STRIP TOOL

ST-C1

The rotary-style coax stripper performs a fast and precise two-level strip in one easy step.

- Standard two-level strip exposes 1/4" of center conductor and 1/4" of shield braid
- Innovative "trigger" design improves control and fits comfortably in hand
- Use with RG59, RG6 and RG6 quad shield coax

FISHING & BENDING

Introducing our unique line of fish tapes, featuring a spiral extruded polymer design that reduces the amount of effort required to push or pull the fish tape through EMT and PVC conduit. Unlike fiberglass, the SIM*pull*™ fish tapes are kink resistant and virtually unbreakable, ensuring maximum efficiency*.
As compared to Southwire steel and fiberglass fish tapes.

SIM*pull*™ NON-CONDUCTIVE TIP FISH TAPE

The SIM*pull*™ non-conductive fish tape is our best option to safely install new wire in conduit with existing wire. The spiral extruded polymer tape reduces the amount of effort required to push or pull the tape through EMT or PVC conduit.

- Tapered Tip – Reduces the changes of snagging on wire & conduit
- Improve Push – Bonded 4.5mm and 5.5mm diameter tape works well in conduit up to 3 inches
- Advanced Tape Guide & Housing – Improved internal mechanics to greatly increase effeciency of payout & reel-in
- Non-Conductive – Allows for safe installation over existing wires
- Durability Certified – Drop Rating of 15 feet
- Laser etched foot markings
- Versatile handle positioning

NON-CONDUCTIVE LEADER

DOES NOT BREAK WHEN FOLDED

SIM*pull*™ FLEXIBLE METAL LEADER FISH TAPE

The SIM*pull*™ flexible metal leader tape excels at gliding through conduit with multiple bends. The spiral extruded polymer tape reduces the amount of effort required to push or pull the tape through EMT or PVC conduit.

- Swiveling Flexible Leader – Easily glides through conduit bends and around existing wire
- Improve Push – Bonded 4.5mm or 5.5 mm diameter tape works well in conduit up to 3 inches
- Advanced Tape Guide & Housing – Improved internal mechanics to greatly increase effeciency of payout & reel-in

SIM*pull*™ FISH TAPE TUBE

FTSP45-240FMLT

The SIM*pull*™ tube is designed for long runs over 125'. This model has the added benefit of both leader types within the same unit.The spiral extruded polymer tape reduces the amount of effort required to push or pull the tape through EMT or PVC.

- Includes both a 360° swiveling flexible metal leader and a non-conductive glow in the dark leader, one on either end
- Swiveling Flexible Leader – Easily glides through conduit bends and around existing wire
- Improve Push – Bonded 5.5mm diameter tape works well in conduit up to 3 Inches
- Length Markings – Quickly identify the approximate length of a conduit run

RESIDENTIALPRO™ BLUETOOTH® CAT III MULTIMETER

13090T

This Bluetooth® enabled multimeter in combination with Southwire's MApp™ mobile app allows you to view, record, and share readings on your smartphone. With TrueRMS and Low-Z readings, a rugged waterproof and dust proof housing, and built-in flashlight, this compact multimeter can be used in a wide range of applications.

- Features automatic power off
- Bluetooth® interface for viewing, recording and sharing using Southwire's MApp™ mobile app
- TrueRMS readings provide higher accuracy on AC circuits
- Low-Z function eliminates false readings from "ghost" voltage
- Powerful LED work light for added convenience
- Rugged IP67 waterproof and dust tight housing
- CAT III 600V safety rating, UL listed
- Built-in test lead storage
- Includes
    - Test leads
    - Type K temperature probe with banana plug adapter
    - Three AAA batteries

LCD VOLTAGE TESTER 600V AC/DC

41171N

Get a multimeter and non-contact voltage detector in one pocket tester. Great for beginning or experienced electricians. Features one of the largest backlit LCD displays in this category. Performs three essential electrician tasks: voltage detection, voltage testing, and continuity. Tests AC and DC voltage up to 600V. Features a built-in non-contact voltage detector and tests continuity with both visual and audible indicators. Fits comfortably in the pocket and has replaceable test leads. 5-year, no hassle warranty.

- Backlit LCD Display
- Built-in Non Contact Voltage Detector with Self Test
- Tests Continuity with visual & audible confirmation
- Bright LED Flashlight
- 0-600V AC measurement range
- 0-600V DC measurement range
- Replaceable Test Leads
- CAT IV 600V Safety Rated
- 6.5' drop tested

DURABILITY CERTIFIED
6.5' DROP TESTED

MODEL #	STOCK #	DESCRIPTION
41171N	65112140	LCD Voltage Tester 600V AC/DC

Voltage	6-600V AC/DC
Safety Rating	CAT IV 600 V, Class 2, Double Insulation
NCV Detection Range	100 V AC to 1000 V AC
Drop Protection	6.5 feet (2 meters)
AC Frequency Range	50 Hz/60 Hz
Operating Temperature	32 °F to 104 °F (0°C to 40°C)
Storage Temperature	14 °F to 122 °F (-10°C to 50°C)

VOLTAGE TESTERS | TEST & MEASUREMENT

VOLTAGE TESTER 600V AC 400V DC

41161N

An ideal test tool for the beginning electrician or for use as a back-up tester for more experienced electricians. Perfect for trade schools too. Performs three essential functions: voltage detection, voltage testing, and continuity. Features an easy-to-read LED display and tests AC voltage up to 600V and DC voltage up to 400V. Has a built-in non-contact voltage detector and tests continuity. Fits comfortably in the pocket, accepts a hanging strap, and has replaceable test leads. 5-year, no hassle warranty.

- Bright LED Display
- Built-in Non Contact Voltage Detector with Self Test
- Tests Continuity with visual & audible confirmation
- Bright LED Flashlight
- Indicates AC voltage from 12-600V AC in 9 steps
- Indicates DC voltage from 9-400V in 9 steps with polarity indication
- Replaceable Test Leads
- CAT IV 600V Safety Rated
- 6.5' drop tested

MODEL #	STOCK #	DESCRIPTION
41161N	65112040	Voltage Tester 600V AC 400V DC

VOLTAGE TESTER 480V AC 110V DC

41151S

CAT III 600V SAFETY RATED UL61010-1

C (UL) US LISTED

The 41151S compact voltage and GFCI tester features an easy to read LED display. It's a simple and safe way to test for live circuits, measure voltage, and test if GFCI circuits are functioning properly. This pocket tester tests AC voltage up to 480V and DC voltage up to 110V.

- Bright LED Display
- Indicates AC voltage from 12-480V in 6 steps
- Indicated DC voltage from 9-110V in 6 steps with polarity indication
- Tests GFCI outlets and circuits
- CAT III 600V safety rating
- Tamper resistant outlet compatible
- Test probes store concealed
- 6.5' drop tested

GFCI RECEPTACLE TESTER

40022S

c (UL) US
LISTED

GFCI receptacle tester quickly identifies the most common wiring faults associated with 3-wire 120V outlets. Just plug it into the outlet and the indicator lights quickly tell you if the outlet is wired correctly. Press the red button to verify that a GFCI circuit is functioning properly.

• Tests standard 120V outlets
• Tests ground fault circuit interrupter (GFCI) outlets & circuits
• Three light indicators identify wiring faults
• Wiring legend on the top and bottom of the tester so it's always easy to see
• UL listed

SAFETY RATED

C (UL) US
LISTED

The 4-Way Voltage Tester is a handy, pocket size tester that checks live AC voltage from 120 to 480 volts and DC voltage from 160 to 600 volts in four easy steps. The 40141S is easy to read and features a convenient, compact design.

- Tests AC voltage from 120V to 480V
- Tests DC voltage from 160V to 600V
- CAT III 600V safety rating
- Built-in test leads and handy pocket clip
- No batteries required
- Test probes conveniently store in the back of the tester and are spaced to fit standard AC outlets
- UL listed
- Built to withstand a 6-foot drop

930°F 12:1 IR THERMOMETER

31212S

Southwire's newest dual-laser IR thermometer, the 31212S, is designed for the professional because it's accurate, rugged, and easy-to-use. Perfect for everyday use but loaded with advanced features for ultimate flexibility. Customers appreciate the extra-large, backlit temperature display that's easy to see in almost any environment.

- Designed for the professional
- Dual-laser targeting for precise aiming
- 12:1 optics for extra-long distance accuracy
- Extra large, uncluttered, backlit temperature display
- Adjustable emissivity - higher accuracy when measuring different materials
- Displays temperature in °F or °C
- Protective carrying pouch included
- Continuous Measurement. Built-in tripod mount and LOCK Mode
- High and Low Temperature Alarms
- MAX, MIN, AVE, DIF Mode

MODEL #	STOCK #	DESCRIPTION
31212S	65111840	930°F 12:1 IR Thermometer

Measurement Range	-26°F - 932°F (-32°C - 500°C)		
Working Temperature	32°F - 122°F (0°C - 50°C)		
Working Relative Humidity	<90% RH (non-condensing)		
Storage Temperature	-4°F - 140°F (-20°C - 60°C)		
Accuracy	**SURFACE TEMPERATURE**	**ACCURACY**	**AMBIENT TEMPERATURE**
	-26°F ≤ t 32°F	+/- (3.6°F + 0.1°F/°F)	69.8°F - 77 °F
	32°F < t ≤ 932°F	+/- 3.6°F or 1.8% of reading, whichver is greater	
	-32°C ≤ t 0°C	+/- (1.8°C + 0.1°C/°C)	21°C - 25 °C
	0°C < t ≤ 500°C	+/- 1.8°C or 1.8% of reading, whichver is greater	
D:S Ratio (Distance to Spot)	12:1 (Applies for 90% for the measuring signal)		
Emissivity	0.1 ~ 1.0 (Adjustable)		
Display Resolution	0.1°F (0.1°C)		

750°F 10:1 IR THERMOMETER

31011F

When you need an IR thermometer that's simple and economical, the Southwire 31011F is the right model for you. Just point-and-shoot for accurate and repeatable temperature measurements around the house or on the job.

- Simple & economical
- Single-laser targeting
- 10:1 optics for long distance accuracy
- Fixed emissivity (0.95)
- Displays temperature in °F or C
- Low-battery indicator
- Built for the Work Environment: 6-Ft Drop Rating

MODEL #	STOCK #	DESCRIPTION
31011F	65111640	750°F 10:1 IR Thermometer

Measurement Range	-4°F - 752°F (-20°C - 400°C)

Working Relative Humidity	<90% RH (non-condensing)
Storage Temperature	-4°F - 140°F (-20°C - 60°C)

	SURFACE TEMPERATURE	ACCURACY	AMBIENT TEMPERATURE
Accuracy	-4°F ≤ t 32°F	+/- (4°F + 0.1°F/°F)	69.8°F - 77 °F
	32°F < t ≤ 752°F	+/- 4°F or +/- 2% of reading, whichver is greater	
	-20°C ≤ t 0°C	+/- (2°C + 0.1°C/°C)	21°C - 25 °C
	0°C < t ≤ 400°C	+/- 2.0°C or 2% of reading, whichver is greater	

D:S Ratio (Distance to Spot)	10:1 (Applies for 90% for the measuring signal)
Emissivity	Fixed at 0.95
Display Resolution	0.1°F (0.1°C)

41210S CIRCUIT BREAKER FINDER WITH GFCI

41210S

The circuit breaker finder pinpoints the specific breaker powering the circuit being worked on. Eliminates guessing and unwanted power outages caused by tripping the wrong breaker.

- Advanced design quickly and reliably pinpoints single breaker without service interruption
- Tests GFCI outlets
- For use on energized circuits
- Includes:
  - 41210S Transmitter and Receiver
  - 3-prong to 2-prong adapter
  - 9 volt battery
- Available accessory: 60030S Adapter Kit

C **UL** US

TYPE K TEMPERATURE CLAMP

60020S

The 60020S Type K temperature clamp allows quick maintenance checks on heating and air-conditioning systems. It's the perfect accessory for clamp meters and multimeters with a temperature function.

- For multimeters, clamp meters and thermometers that accept a type K temperature probe
- Spring-loaded jaw clamps around heating/cooling pipes up to 1.5" in diameter
- Temperature range: -4° to 200°F (-20° to 93°C)

MODEL #	STOCK #	DESCRIPTION
60020S	58293140	Type K Temperature Clamp

TEST LEAD KIT

60010S

60010S Test lead kit includes universal replacement leads for all Southwire meters.

- UL listed
- CAT IV 600V/CAT III 1000V
- Includes alligator clip attachments (CAT III 600V)

MODEL #	STOCK #	DESCRIPTION
60010S	58292940	Test Lead Kit

ADAPTER KIT FOR CIRCUIT BREAKER FINDER

60030S

This adapter kit includes a light socket adapter that allows for rapid location of circuit breakers connected to lighting fixtures. Also includes alligator clips that allow the transmitter to be connected to unterminated branch circuit wiring.

- For use with 41210S circuit breaker finder

MODEL #	STOCK #	DESCRIPTION
60030S	58292240	Adapter Kit for Circuit Breaker Finder

ELECTRICAL TEST KIT

10037K

The Southwire electrical test kit combines three of Southwire's most popular test and measurement products into one convenient kit. Ideal for household repairs and electrical troubleshooting.

- 10031S Manual ranging multimeter is CAT III 300V safety rated. It measures AC/DC voltage, resistance, and DC current. Also tests batteries and continuity.
- 40117N Non-contact AC voltage detector has a 90-1000V detection range, CAT IV 1000V safety rating, automatic self test, and features a bright LED flashlight
- 40012S Receptacle tester verifies wiring errors in standard 3-wire AC outlets. Just plug it into the receptacle. LED indicators and wiring legend identify faults
- All products are UL listed and meet the latest UL safety standards
- All products are built to withstand a 6-foot drop

CABLE PULLING

Southwire cable pulling equipment sets the industry standard. We've revolutionized these tools to make them faster, safer, and smarter than ever before. With Southwire cable pulling equipment on your jobsite, you can see an increase in safety, efficiency, and profitability.

MAXIS® XD10 EXTREME DUTY CABLE PULLER

XD10

WE'VE GOT IT
MADE IN AMERICA™

The MAXIS® XD10 EXTREME duty cable puller is designed to get the job done, thriving in the most extreme pulling conditions. The XD10 allows you to pull faster and safer up to 10,000 lbs.

- Smooth Elevation Control: Operates with handle or 18V cordless drill helping to eliminate any lifting
- Pulls up to 10 ft. of extra wire without extending the boom
- Gear reducer design allows for increased efficiency, durability, and power while maintaining low operating temperature
- 10,000 lb. peak pulling force with a continuous pulling rate of 7,000 lbs.
- Conduit adapter sizes 2" - 4" included, 5" & 6" adapters sold separately
- Self Contained: ready to pull with no need for additional parts or equipment for set up
- Single person set up and operation: Quickly adapts from underground to overhead pulls
- Collapsible down to 40"H x 26"W x 70"L to fit through standard doorways and ease of transport

CABLE PULLING

MAXIS® 6K CABLE PULLER

M6K-M
M6K
PC100

A 6,000 pound cable puller that sets up in less than 2 minutes.

- One person, 2 minute set up
- 2 pulling speeds: 12 feet per minute on low (at no load) and 44 feet per minute on high (at no load)
- Quickly adapts from underground to overhead pulls
- No need to bolt to the ground on most pulls
- 6,000 lb. peak capacity with continuous rating of 3,500 lb. on low
- Can adapt to virtually any wire pull
- Can be anchored to most trucks' standard 2" receiver hitch
- Able to pull up to 9 ft. of wire out of the conduit
- Includes 5 conduit adapters 2" - 4" Included, 5" and 6" sold separately
- Includes puller cart with tool bag

MAXIS® 3K CABLE PULLER

M3K-M
PC100
M3K
M3K-BAT

A high speed, lightweight 3,000 lb. cable puller. Southwire now offers the M3K-BAT, your complete solution for a truly cordless cable pulling experience. Eliminate the need to be near an outlet or having to run long extension cords on the jobsite which can create trip hazards. No additional hardware is required as you will use the pre-existing hardware and included hex nuts to assemble the M3K-BAT.

- One person, 2 minute set up
- 2 pulling speeds: 25 feet per minute on low (at no load) and 100 feet per minute on high (at no load)
- Quickly adapts from underground to overhead pulls
- No need to bolt to the ground on most pulls
- Able to pull up to 8 ft. of wire out of the conduit
- 3,000 lb. peak capacity with continuous rate of 1,500 lb. on low
- Can adapt to virtually any wire pull
- Can be anchored to most trucks' standard 2" receiver hitch
- Includes 8 conduit adapters: 2" - 4"
- Puller cart with tool bag
- Completely cordless cable puller. No outlet? No problem!
- No additional hardware required.
- One person, two minute setup to operate.
- 12.0 AH capacity for extended run life.

CABLE PULLING

MAXIS® XD1 CABLE PULLER

XD1

Safer, faster, and more efficient way to pull low voltage, branch home runs, lighting cables, and small circuit sized wires.

- Continuous pulling up to 600 lbs.
- Lightweight and portable
- One person setup and operation
- Accepts most commercial 18V cordless drills
- Removable capstan to facilitate polyline removal
- Expandable length up to 34.5 inches
- Polyline pin on capstan to prevent slippage during the pull
- Anodized for corrosion resistance
- Field replaceable chuck adapter
- 600 lbs of constant pulling force with 1000 lbs peak pulling force

XDTM EXTREME DUTY TENSION MONITOR

XDTM

10,000 lb., in-line tension monitor.

- Working load: 10,000 lbs
- Top handle for easy handling
- Large, soft touch button controls
- Usb port for easy data extraction
- Back lit screen allows for easy viewing
- Anodized aluminum frame for durability
- Tie-off slots
- Covers full range of rope sizes
- Built-in battery for long life
- Custom roller case
- 5 roller design means one calibration
- No disassembly for rope insertion

CABLE PULLING

MAXIS® CABLE FEEDER

MCF01

Designed and built specifically to accommodate Southwire SIM*pull*™ wire, the Maxis® Cable Feeder is a revolutionary way to feed wire quickly and efficiently.

- Designed and built specifically to accommodate Southwire SIM*pull*™ wire
- Quick 1 person, 2 minute set up and operate
- Forward and reverse, variable speed, and feeds up to 30' per minute
- May be used with Triggers® Safety System for simultaneous feeder/puller control
- Easily adjust wire tension, even during operation
- Feeds wire sizes from 1/2" - 3 1/2" cable
- Solid rubber tires and swivel casters that will never go flat for easy job site maneuverability
- Digital footage meter allows easy monitoring of approximate conductor length being fed
- Uses grooved roller design with increased surface area for greater traction force (no pneumatic tires)
- Dual anchoring mechanism
- Maximum traction force: single conductor 800 lb., 4 SIM*pull*™ THHN 500 MCM conductors 1,600 lb. capacity
- Cable capacity: 8 x 250 MCM, 6 x 500 MCM, 5 x 750 MCM

TRIGGERS® WIRELESS SAFETY SWITCH SYSTEM

TSS01

Safety system designed to control the input power of any piece of jobsite equipment.

- Works with all brands of electrically driven equipment
- Saves time by avoiding unnecessary stops and restarts
- High visibility LED status lights
- Monitors amperage draw indicating when to switch puller to low speed
- Triggers® Wireless safety switch system is UL and FCC certified and carries an IP55 rating
- Foot controls contain dual redudant activation switches
- Military grade 3.4 amps per hour lithium ion battery packs
- Handheld remotes can control pull from any location
- High range: communicates up to 1500' between walls and 1.5 miles line of sight

LOW VOLTAGE FOOT SWITCH

LVFS01

- Works with all brands of electrically driven equipment
- Shuts off equipment when over amperage condition is indicated
- Monitors for under voltage condition which can cause an over amperage condition
- Bright LED lights for easy viewing in bright sunlight
- Redundant switches for added reliability
- Impact resistant metal construction
- Low voltage indicator light for detecting low voltage situations
- Built-in over amperage protection to protect equipment and motors

CABLE PULLING

SIM*pull*™ CABLE GUIDE SYSTEM

CGS01

WE'VE GOT IT
MADE IN AMERICA™

Integrated guidance system allowing wire and cable to be routed from a reel into a conduit or cable tray without human intervention.

- Designed to eliminate the manual handling of service and feeder conductors during wire pulls
- Completely customizable for any wire and cable installation
- Minimizes labor effort during installation
- Reduces the risk of jobsite injuries
- Specialized storage cart for ease of transportation
- Roller guides direct and protect wire and cable along any desired path
- Universal clamps attach the system to the reel jacks, switch gear or panel box

MAXIS® TRIPODS

P3T01
P6T02

M3K and M6K Tripods attach to MAXIS® cable pullers to make underground wire pulls simple and easy.

- Easily attaches to the M3K or M6K cable pullers
- Helps when pulling from transformer pads, vaults and meter bases
- Setup in two minutes
- Helps to pull out extra wire

CABLE PULLING

QWIKrope®

An innovative, high performance pulling rope that is UV resistant, lightweight, and ultra low stretch for all of your feeder and circuit wire needs.

- High performance pulling rope made from ultra high molecular weight polyethylene fibers
- 12 Strand single braided 9/16" pulling rope with a breaking strength of 32,000 lb., pound for pound stronger than steel
- 2 Sizes for all your circuit wire pulls: 1/8" pulling rope with 1,100 lb. of breaking strength, and 1/4" pulling rope with 7,500 lb. of breaking strength
- 24% reduction in the coefficient of friction, as compared to traditional pulling ropes
- Dual factory installed pulling eyes
- Does not absorb water, no rope rot
- Need only one size rope (9/16") for feeder conductor that pulls up to 10,000 pounds
- 1/8" QWIKrope® can easily be vacuumed into any conduit run up to 290 ft.
- 9/16" QWIKrope® recommended for use with all MAXIS® cable pullers

STRAIGHT AND SWIVEL CLEVISES

Connects pulling head and pulling rope to eliminate winding and tangling of rope and wire during cable pulls.

MS158
- Swivel diameter 1 5/8"
- Maximum rope size: 1"
- Designed to pass over sheaves, pulleys and rollers
- Pin roller design added for larger diameter rope and for added strength by evenly spreading load pressure

MS114
- Swivel diameter 1 1/4"
- Maximum rope size: 5/8"
- Designed to pass over sheaves, pulleys and rollers
- Pin roller design added for larger diameter rope and for added strength by evenly spreading load pressure

RC114
- Clevis diameter 1 1/4"
- Maximum rope size: 5/8"
- Connects to cable grip and pulling rope
- Designed to pass over sheaves, pulleys and rollers

CONDUIT MEASURING TAPE

SWCMT160-3000S

The conduit measuring tape measures 3,000 ft. and has easy-to-read markings in sequential, one-foot increments.

- Provides quick and accurate measurement of conduit runs
- Printed with accurate sequential footage markings
- Will not rot or mildew

CABLE PULLING

MAXIS® GRIPS PULLING HEADS

The MAXIS® grips pulling heads are a dual lock pulling system that uses both a cam lock head and a double braided wire to quickly secure cable to rope without the fear of losing a conductor. These pulling heads provide increased efficiency with 2 minute head preparation.

- Rated at 4,000 lbs. per conductor.
- Holds securely to NO-LUBE® wire
- Disconnect wire from pulling heads in 2 minutes without cutting the wire
- No cutting, stripping or weaving of wire to make pulling head
- Easily moves through conduit and around 90° bends
- Staggered lengths for easier movement
- Keeps pulling head tight for easier movement through conduit

SIM*pull* HEAD® PULLING DEVICE
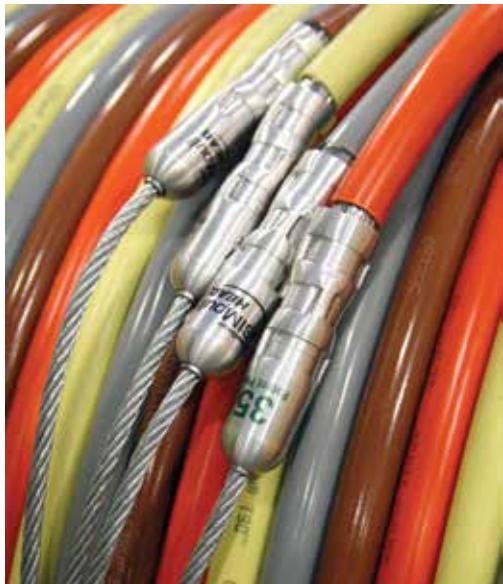

Available in sizes from 8 AWG to 1000 KCMIL the SIM*pull* Head® pulling device eliminates the need to make up a pulling head on the job site and reduces waste.

- Factory and Field installable pulling grip
- Eliminates the need to make up a pulling head on the job site and reduces waste
- Low profile head eliminates the problem of the head not fitting in the conduit or around a tight turn
- Saves time making pulling heads
- Patented gripping system — factory installed conductors guaranteed not to pull loose during your pull
- Available in 6", 12", 18", 24", and 30" staggered lengths

CABLE PULLING

PULLING GRIPS

Flexible leader guides steel tapes through conduit and helps reduce the challenge of pulling wire and cable. Available in two separate grip sizes to meet your pulling requirements.

- Used to pull wire and cable through walls and conduit
- Swivel design minimizes cable twisting
- Mesh design holds wire or cable securely during pull
- 100 lb. pulling force capacity
- Available in 1/2" and 3/4" diameters

INDUSTRIAL GRIPit™ PULLING DEVICE

GRIPit™ Circuit management system can help make every branch circuit and home run pull safer, easier, and more productive.

- Reusable pulling head
- No need to strip the wire
- Low profile head eliminates the problem of the head not fitting in the conduit or around a tight turn
- Easily attach and remove wires without cutting
- Save time making pulling heads
- Usable on solid and stranded wires from sizes 14AWG to 10AWG
- Staggered lengths (6", 12", 18", 24", & 30" lengths available)

CABLE PULLING

SIM*pull*™ GRIPit™ CIRCUIT SIZED PULLING HEAD

CSPH1HD

The SIM*pull*™ GRIPit™ circuit sized pulling head can help make every branch circuit and home run pull safer, easier, and more productive.

- Easily connects to fish tape, string, or rope
- 14 AWG - 10 AWG solid or stranded conductors
- 600 lb pulling force
- Reusable pulling head for circuit wire
- Easily attach up to 7 wires of 10-14 AWG solid or stranded wires per pulling head
- No cutting, stripping, taping, or weaving wire to make pulling head

REEL ROLLERS

RR-SW30

RR-SW45

WE'VE GOT IT
MADE IN AMERICA™

With its heavy duty, all welded construction, the RR-SW30 is built to handle 30,000 lbs. and the RR-SW45 is built to handle 45,000 lbs. With convenient fork tubes and lifting eyes, maneuvering the equipment around the jobsite is easy. You can now safely operate the reel roller by standing outside of the wire's path by remotely operating the unit with the foot control and variable speed adjustment. When the job is finished and it is time to store the unit, the RR-SW30 and RR-SW45 will not take up as much room as traditional reel rollers with our new stackability feature. All that is needed for the RR-SW30 is 2" piece of rigid conduit cut to the desired length and installed in the feature. This unit can be stacked 4 units high. For the RR-SW45 all that is needed is a 2.5" piece of rigid conduit cut to the desired length and installed in the feature. This unit can be stacked 3 units high.

- RR-SW30 handles up to 30,000 lbs.
- RR-SW45 handles up to 45,000 lbs.
- Stackable up to 4 units for the RR-SW30 and 3 units for the RR-SW45
- Speed control adjustment
- Foot control for remote operation
- Heavy duty 10-amp motor
- Convienent fork tubes on both sides
- Made in the USA
- Heavy duty all welded construction

CABLE PULLING

SIM*pull*™ GuideIt™ CIRCUIT ROUTER

WG01

A wire router for circuit panel and junction boxes.

- Universal adapter for hands free circuit wire feeding
- Routes circuit wire in enclosures up to 32"
- Helps to prevent any damage to wire during installation
- Reduces the need to route circuit wire into a raceway or conduit

ACCESSORIES

CABLE PULLING |
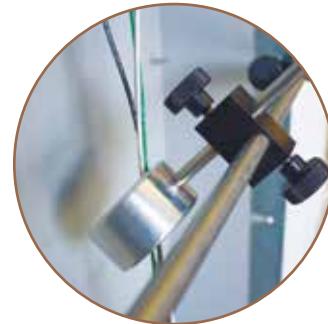

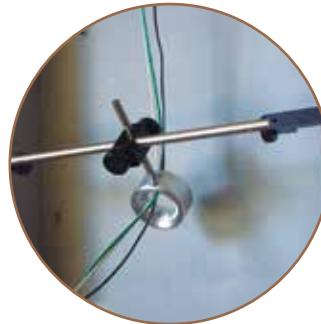

TERMINATION

Southwire termination line of tools sets a new industry standard. We've revolutionized these tools to make them faster, safer, and smarter than ever before. With Southwire cable stripping, cutting and crimping tools on your job site you can see an increase in safety, efficiency, and profitability.

TERMINATION

XT CABLE STRIPPER

XTS01
XTS01RB

WE'VE GOT IT
MADE IN AMERICA™

The XTS-01 cable stripper is made for end and mid-span terminations of 600 volt 1/0 AWG to 1000 KCMIL or outside diameters from .33"-1.284". Works on THHN, XHHW, RHH, RHW, and USE jackets.

- Cutting depth is adjustable to precisely match insulation thickness for fast stripping while eliminating cable scoring
- Adjustable 4" depth gauge provides consistent repeatable strips
- Replaceable, precision razor sharp blade that is safely enclosed within the tool, eliminates stripping cables with a knife
- Capacity : wire 1/0 AWG (.33" in diameter) in size to 1000 KCMIL (approx. 1.284" diameter)

XT MINI STRIPPER

XTS02
XTS02RB

XT Mini stripper for sizes #6 AWG through 1/0 AWG.

- For end termination on THHN/XHHW 600V insulation types
- Cutting depth is self setting to eliminate cable scoring
- Replaceable blade that is safely enclosed within the housing
- Capacity: Wire sizes #6 AWG through 1/0 AWG

CONDUIT BENDING

We don't just help you bend conduit, we change the way you do it. In addition to offering traditional conduit bending tools, Southwire has designed bending platforms that allow you to bend 1/2" to 2" EMT, IMC, and GRC conduit more efficiently, helping you do more work faster and stay fresh longer.

MAXIS® XTREME™ BENDER

MXB2000

The Maxis® Xtreme™ bender incorporates multiple shoe groups for a lightweight highly transportable bender.

- Billet Aluminum pendant for increased durability
- Quick change control cable
- Compact removeable handle to reduce interference with bends
- Industry leading 5 year warranty
- Designed to work with competitor shoe and rollers

CONDUIT BENDING

MAXIS® HYDRAULIC BENDING MACHINE

MHB4000

A complete solution for bending 2.5-4 inch Rigid, IMC and EMT conduit with ergonomic storage and transport cart and 90 degree shoes.

- Most efficient solution for bending 2.5" - 4" EMT, IMC, and GRC conduit
- Easy, safe set-up - mast hydraulically raises & locks in seconds
- Fast shoe changes. Long-stroke cylinder requires no extra adjustments when changing shoes
- Less time between bends. Precise cylinder control reduces set-up time
- Consistent, accurate bends. Rigid mast. Precision-machined shoes & follow bars
- Smart, efficient organization - color-organized accessories, intelligent storage

BEND*STATION*™ COMMON CART WORK STATION

RB1000

WE'VE GOT IT
MADE IN AMERICA™

BEND*STATION*™ common cart work station.

- More accurate measurements, bends, and cuts
- Measure, bend, clamp and cut at a comfortable 36" work table height for reduced labor fatigue
- Store up to 900 feet of conduit or strut dependent on size
- Extra shelf for storage of tools and materials
- Heavy duty casters for easy transportation and mobility
- Requires up to 40% less effort than other mechanical benders
- Built-in 60" ruler for quick and accurate measuring
- Eliminates the need to bend over to get a closer look at hand bends
- Unique speed vice designed specifically to hold conduit and unistrut, helps make cutting quicker and safer
- Speeds up the entire bending process up to 30%

BEND*DOLLY*™ BENDING PLATFORM

BD1000R

WE'VE GOT IT
MADE IN AMERICA™

Mechanical bending platform.

- Light weight bending platform
- Interchangeable shoe mounting plate
- Large dolly wheels for easy maneuverability
- Stable bending platform
- Interchangeable EMT shoes and IMC/GRC shoes
- Durable black powder coating for increased corrosion resistance
- Accepts four different Southwire bending shoes
- Upright storage position

HOLE MAKING

Southwire has developed industry leading tools for electrical contractors, including a comprehensive line of hole making solutions. With tools ranging from cutting dies to the original drill-powered knockout punch, you can make quick, accurate holes every time without the muscle or mess.

MAX PUNCH® XD

MPXD

Heavy duty knockout punch driver for stainless and mild steel.

- No hydraulics, no ratcheting, no mess!
- Thread-in/thread-out removable drawstuds (universal to fit most common KO dies)
- Rated to cut 10 gauge mild and stainless steel up to 4"
- Minimum drill recommendations: 18V cordless, equivalent of 550 in. lbs. torque rated

MPXD-SD
INCLUDES:
- MAX PUNCH® XD drive unit
- 1/2" – 2" MAX PUNCH® Pro cutting dies (rated for stainless steel)
- 2 drawstuds sizes 3/4" & 7/16"
- Marksman™ conduit layout tool
- Step drill bit (3/16" – 7/8", 2 nut drivers) (7/16")
- Heavy duty carrying case

MPXD-SD

MP-03PRO
INCLUDES:
- 2 1/2" - 4" MAX PUNCH® Pro cutting dies
- 1 1/8" drawstud
- Heavy duty carrying case

HOLE MAKING

MAX PUNCH™ MANUAL STUD PUNCH

MSP01

2 tools in 1, punches $7/8$" and 1 $11/32$" holes.

- Sizes include - 7/8" (22.5mm) & 1-11/32" (34.1mm)
- MAX PUNCH™ Manual Stud Punch is intended to punch round holes in 20 gauge steel studs
- Lock to keep handle in place when not in use
- Lightweight punch makes accurate location of holes easier
- Cushioned handle gives more leverage and makes it easier to punch in tight spaces, meaning less operator fatigue and more comfortable handling

MAX PUNCH™ RATCHET SET WITH 1/2" – 2" CUTTING DIES

MPR-01SD

Flex head ratchet wrench allows for easy maneuverability around obstacles.

- Cuts through 12 gauge mild steel as well as aluminum, fiberglass, and plastics
- Unique 3-point cup cutting surface provides a clean, quick, and easy cut for 1" through 2" dies
- Cup design creates crimping effect on slug for easy removal for 1" through 2" dies
- Ball bearing draw stud for reduced friction
- Includes Southwire Marksman® (Model # MM01) Conduit Layout Tool
- Includes 1/2", 3/4", 1", 1 1/4", 1 1/2", and 2" dies

MATERIAL HANDLING

As one of the most innovative tool lines in the industry, Southwire Tools and Equipment has provided material handling solutions that move material quickly, easily, and safely. With a product line that includes reel jacks, SIM*pull*™ *Coil*PAK™ carts, and Wire Wagon® carts, you can complete the job better than ever before while saving time and energy.

MATERIAL HANDLING

SIM*pull*™ FLANGE

SF-01

The SIM*pull* ™ Flange's patented shaft less design, safely allows one person to turn a wooden or plastic reel up to 34 in. and 2000 lbs into a time saving, field-installable solution that removes the need to handle heavy jack stands. Each flange rotates independently, and allows free movement of loaded wooden or plastic reels. The SIM*pull*™ Flange is reusable in the field and can be installed on multiple reels throughout the jobsite.

U.S. PATENT #: US9617112

PROJAX™ REEL STANDS

**MPJ01
MPJ02**

A 10,000 lb. capacity portable reel stand.

- One person can easily transport through most jobsite environments
- Minimum drill recommendations: 18V cordless, equivalent of 1000 in. lb. torque rated, for reels up to 10,000 lb.
- Easy adjustment for uneven surfaces on jobsite
- Axle rests on steel rollers for easy wire pay off
- Axle safety guard ensures that reel will not fall off of jack stands
- Uses an 18V cordless drill to lift wire reels
- PRO-JAX™ stands can lift up to 10,000 lb. as a pair (4545 kg)
- Can be used with 1 1/4" - 3" axle
- Includes axle storage assembly

MAXISJAX® REEL STANDS

MJ707

A unique reel stand that will quickly set up and lift wire reels safely and efficiently without the hassle of conventional stands.

- Easy to store and transport
- Breaks down into a compact storable tool
- Jaw clamps onto axle so that wire reels won't come off or fall over
- Multiple steel rollers make it easy for one person to roll off heavy wire
- Max lever allows one person to lift wire reels off the ground with minimal effort
- Uses either a 1-1/2" to 2" rigid pipe for an axle
- Works on reels up to 48" tall
