

KS40-M8-SS

Ruland KS40-M8-SS, Star Knob, 40mm Knob Diameter, M8 tapped hole, Stainless Steel

Description

Ruland KS40-M8-SS is a star knob with a 40 mm knob diameter, and M8 tapped hole. This star knob is used to quickly adjust conveyor guide rails, screens, sensors, and other industrial components without tools. It mates to hardware with M8 threading. The knob and tapped hole are made of AISI CF8 stainless steel with a shot blasted finish. This gives KS40-M8-SS good corrosion resistance capabilities for use in food, packaging, and medical applications. The grooves of the star-shaped knob offer an ergonomic grip, making it easy to tighten and loosen as needed. It is ideal for confined spaces due to its small dimensions and tool-free operation. KS40-M8-SS is manufactured by Otto Ganter, inventoried by Ruland, and RoHS3 compliant.
