Description

Ruland KS40-5/16X18:23-PF is a star knob with a 40 mm knob diameter, 5/16x18 threading, and 23 mm long threaded stud. This star knob is used to quickly adjust conveyor guide rails, screens, sensors, and other industrial components without tools. It replaces standard hardware with 5/16x18 threading. The knob is made of shock-resistant technopolymer plastic with a matte black finish and is attached to a zinc-plated steel stud allowing for use in most industrial applications. The grooves of the star-shaped knob offer an ergonomic grip, making it easy to tighten and loosen as needed. It is ideal for confined spaces due to its small dimensions and tool-free operation. KS40-5/16X18:23-PF is manufactured by Otto Ganter, inventoried by Ruland, and RoHS3 compliant.
