

## LA45-M6:32-ZF

Ruland Adjustable Clamping Lever, Lever Length 45mm, Stud Thread M6,  
Stud Length 32mm, Zinc Lever, Steel Inserts

### Description

Ruland LA45-M6:32-ZF is an adjustable clamping handle with a 45mm handle, M6 threaded stud, 32mm stud length, 10mm insert diameter, and 35mm overall height. The steel inserts combined with a zinc die-cast handle allow for use in heavy duty industrial applications. LA45-M6:32-ZF has a textured finish on the handle making it easy for the user to grip in manufacturing environments with oil, coolant, or other lubricants. It is commonly found in packaging, printing, food processing, and manufacturing systems where conveyor rails, sensors, screens, and other components require frequent adjustments without the use of tools. The adjustable feature of this handle allows it to be used in confined spaces with limited hand access or where 360 degree rotation is not possible. Serrations connect the insert to the handle for easy disengagement. The user pulls the handle upwards by hand to disengage the serrations allowing it to be swiveled to the desired clamping position. Serrations automatically re-engage once the user releases the handle locking it in-place. A M6 threaded stud can replace existing hardware in an application or mate to an equivalently sized tapped hole for a quick installation. LA45-M6:32-ZF is black to seamlessly integrate with the aesthetics of most equipment. It is manufactured by Otto Ganter, stocked by Ruland, and RoHS3 and REACH compliant.

### Product Specifications

|                                |              |                         |                       |
